

Oncology at Iowa State University

How to Reach Us

Here at Iowa State, the oncology service works as a team to bring you and your pet the best possible care. This means that you may see different members of our team for each appointment. We maintain continuity of care through frequent communication among our team members to ensure seamless transfer of care each week. If you have questions or concerns about this aspect of your pet's care, please let one of us know.

Please call the ISU Small Animal Desk at **515-294-4900** for **ANY** of the following reasons:

- To schedule, change, or cancel appointments with the oncology department
- To speak with the oncology service clinicians: Drs. Johannes, Musser, or Berger

- If you have questions regarding patient care or medications
- If you have questions related to patient chemotherapy protocols
- If you have concerns about your pet regarding a decreased appetite, vomiting, diarrhea, extreme lethargy, and/or nausea.

Please let the receptionist know the nature of your call

In case of an after-hours **emergency** (after 5 pm on weekdays, weekends, and holidays), please call **515-294-4900** – your call will be forwarded to the Small Animal Intensive Care Unit (ICU) and an Emergency Clinician on-duty will be contacted.

For **non-emergent** questions, you may email our technician, Rachael Rail, at oncotech@iastate.edu (please allow 1-2 business days for a reply).

MEET OUR ONCOLOGY TEAM

ONCOLOGISTS

Chad Johannes, DVM,
DACVIM (Internal Medicine,
Oncology)

RADIATION THERAPIST

Drema Lopez, RT(T)
